---

In 1994 the era of South Africa's new communist masters dawned upon South Africans. Most people, and especially whites suffering from an overdose of political apathy, have not yet realized this fact. Others suffering from denialism, think it is not that bad. The politically aware, are grouping together and dreaming about secession. Then you get that special breed of spineless jellyfish, taking on the shape of whatever mould they're put in, even that of the ideology of genocidal communists. And it is this jellyfish that is doing everything in their power, to make an intrinsically flawed ideology, to work.

These jellyfish are the carthorse of George Orwell's "Animal Farm". They are the glue keeping the fallacy alive and well. And the more they are applauded for their farcical actions and thought processes, the mightier they become, powerful prowlers. But they have to keep on feeding the origins of their applause, because of the indigenous retardation factor built into parasitical creatures. Their job is to feed their masters permanently.

They become the Crocodile-Feeders of society. But they are the snakes you carry in your bosom, that will bite you in the neck. They are the wolves we feed in winter, that will bite us in summer. They are also mixing with the bran, that will be eaten by the pigs. Talking to them is throwing your pearls to the swines. It is this special grouping of bran-wolve-snakes that think they have arrived in heaven, because they are accepted by the majority of blacks in South Africa. They don't realize they are the meal ticket of an incompetent and incapable parasitical population.

How does the African National Congress/South African Communist Party alliance, repay these Crocodile-Feeders, in kind ?

The ANC/SACP alliance maintains a Black Economic Empowerment policy in the economy, that prevents the free and fair competition for jobs in the marketplace by qualified white people. And with a white population sitting with almost 50 % of all postgraduate qualifications in South Africa, that poses serious survival issue, which in reality, is a genocidal state induced-famine amongst the 800 000 whites already decimated to living in white squatter camps.

In the government sector, the whites working in government has been reduced since 2005, from a total of 96 000 to a mere 86 000 in 2010, adding another 10 000 white families to the white squatter camps. That is not because the ANC/SACP downsized the number of government

employees. No, no.

Rather call it cronyistic genocide of whites.

The ANC/SACP have in the same period of 2005 to 2010 increased the number of blacks working in government from 600 000 to 800 000 plus.

It is because they are executing the ANC's incremental and fast-track neo-genocide of whites, as taught to them by members of the clique they belong to as rulers in UNCHR's "abuser's group" of states that abuse human rights in their respective countries.

These skunk countries comprising the 'abuser's club', including Bob Mugabe of Zimbabwe, Viêtnam, Cambodia, Myanmar (Burma), Iran, Libya, Red China, North Korea and other human-rights abusing countries.

And this white Crocodile-Feeders, maintain the espionage activities against their own kind. The Crocodile-Feeders hire even more of the black advantaged class, and terminate the services of whites. The Crocodile-Feeders prohibit the purchases of any goods and services from white people, or white entrepreneurs.

In companies like ABSA, black junior bank managers enter the job market at three times the annual salary of skilled white bank managers with service in excess of 20 years. In the Information Technology departments of ABSA, black IT candidates are employed at a rate of three times that of skilled white IT specialists. And then the black candidates can hardly switch on a computer.

At clothing outlets like Mr Price, the whole sales staff in branches like that in Clearwater Mall, and Westgate comprise only of black sales staff, no white face in sight.

Yet the white Crocodile-Feeders still continues to discriminate against their own kind, ridiculing

them in corporate circles, writing scathing and liberalist gargon in newspaper comments and the internet.

The Crocodile-Feeders, because of the applause from the ruling party for fulfilling the role of the carthorse, perceives themselves as the 'upperclass' of society. They look down on those in run-down motorcars, from the height of their silver temporary, SUV's, bought by 30 silver pieces.

What the white Crocodile-Feeders, of South Africa does not realize, is that the ideological master they serve and applaud, failed spectacularly in Russia and elsewhere. The ideology of communism is intrinsically flawed. There is no motivation built into that system that will guarantee excellence, or production, or performance, or profit.

Communism rids itself in libraries, the sports, the academics, of all reference to how excellence is actually achieved. It destroys the history of natural leaders and heroes, and create new heroes out of those whose only heroic action, is to bow and worship their new masters with the hammer and sickle badge on their chest.

Today, people in Russia are earning less in real terms, than in 1937.

And when a failed state like South Africa, one day wishes to improve life and country to the benefit of all it's citizens, they find it near impossible, like Russia, because all knowledge regarding excellence have been destroyed systematically over decades.

It is easy to destroy an inheritance of a fully-functional state.

To create a fully functional state, benefiting all it's citizens, has yet to be mastered by Africans in Africa.

Botswana basing it's government on a foundation of the Gospel of Christ, entrenched in school

years, is the exception.

And then when the economy fails spectacularly, because of decades-long, unspectacular actions by Crocodile-Feeders, that preceded the spectacular failure, commodities like meat and protein becomes scarce.

And the ANC/SACP's hungry crocodiles, eat the Crocodile-Feeders in the white community.

Crocodiles always eat their feeder last.
